THE CONFEDERATION DEBATE.

The Legislative Council met at 8 o'clock on Friday evening, when the hon. Mr. DeCosmos moved the following Address to the Queen:-

To the Queen's Most Excellent Majesty.

Most Gracious Majesty:
We, your Majesty's dutiful and loyal subjects, the Members of the Legislative Council of British Columbia, in Session convened, would most respectfully represent:-

I. That in an Act passed in the thirtieth year of Your Majesty's reign, entitled "The British North America Act, 1867," provision is made for the admission of British Columbia into the Dominion of Canada.

II. That the 148th section of said Act declares that British Columbia may be admitted into the Dominion of Canada, provided that addresses to Your Majesty, containing the terms and conditions of such admission, shall be passed by the Houses of Parliament of Canada and the Legislature of British Columbia.

III. That Your Majesty's dutiful and loyal subjects, the inhabitants of British Columbia, most earnestly desire that such admission may take place without delay, on the terms and conditions hereinafter enumerated.

IV. That being fully convinced that such admission would, in a marked degree, strengthen British power and influence, and establish more firmly British Institutions in Your Majesty's Possessions in the North Pacific, and generally throughout all British North America, and faithfully representing as we do, the general and expressed wishes of the inhabitants of this Colony, we earnestly desire that such admission may take place without delay, on the terms and conditions hereinafter enumerated.

V. Therefore, we, Your Majesty's dutiful and loyal subjects, the Members of the Legislative Council of British Columbia, humbly pray that Your Majesty may be graciously pleased to admit, without delay, the Colony of British Columbia into the Dominion of Canada, in accordance with the provisions of "The British North America Act, 1867," and on the terms and conditions following:-

1. The limits of British Columbia, on and after admission, to be the same as at present.

2. The Dominion of Canada to become liable for the public debt of British Columbia, and make the same a charge on the consolidated revenue fund, the said debt not to exceed one million five hundred thousand dollars.

3. British Columbia to be liable for such portion of her funded and floating debts as may exceed the said \$1,500,000.

4. The Dominion of Canada to pay annually out of her consolidated revenue fund, in semi-annual advances to British Columbia for the support of her local Government and Legislature, the sum of \$10,000, and also an annual grant in aid of the local Government of British Columbia, equal to eighty cents per head of the population of British Columbia, the minimum number of said population, including Indians, not to be estimated at less than 40,000, at any time, and the increase of population after admission to be the increase of population other than Indians, and the said increase of population to be determined by census or otherwise as may from time to time be expedient.

5. All Crown lands, mines, minerals, and royalties situate in British Columbia at the time of admission, and all sums of money then due or payable, or that may afterwards arise for such Crown lands, mines, minerals, and royalties, to belong to British Columbia, and be under the exclusive control of its Government and Legislature.

6. All stocks, cash, Banker's bal-

ances, and securities for money belonging to British Columbia, at the time of admission, to be the property of British Columbia.

7. All public works and property of British Columbia, at the time of admission, to belong to the colony of British Columbia.

8. The Dominion of Canada to construct, within two years after admission of British Columbia, a good overland wagon road, extending from Lake Superior, Ontario, to the head of navigation on the Lower Fraser River, British Columbia.

9. The Imperial Government to guarantee a loan to construct the said overland road, if deemed expedient.

10. British Columbia to be represented in the Senate by not less than two members, and in the Commons by not less than three members, at any time.

11. At the first election of Representatives to the Commons and until otherwise provided for by the Parliament of Canada, the Lieutenant Governor of British Columbia to proclaim what shall be the qualifications and disqualifications of Representatives and electors, the boundaries of electoral districts, and the laws governing such elections.

12. At the time of admission, the Revenue laws of the Dominion of Canada to extend and apply to British Columbia, and thereupon the Revenue laws of British Columbia thereby affected to be null and void, and all duties and revenues derived in and from British Columbia under the Revenue laws of the Dominion of Canada, to belong to Canada.

13. The exclusive powers of Provincial Legislatures enumerated in the ninety-second section of "The British North America Act, 1867," and all other provisions of the said Act that extend and apply generally to the Provinces of the Dominion of Canada and that may be applicable to British Columbia, except as otherwise in this Address provided, to extend and apply to British Columbia, at and from the time of admission.

14. Except as otherwise provided, all laws in force in British Columbia, at the time of admission, and all Courts of Civil and Criminal Jurisdiction, and all Officers, Judicial, Administrative, and Ministerial, existing therein at the time of admission to continue in British Columbia as if such admission had not taken place; subject nevertheless to be repealed, abolished, or altered by the Parliament of Canada or by the Legislature of British Columbia, according to the authority of the said Parliament or of the said Legislature, under "The British North America Act, 1867."

15. Until the Parliament of Canada provides otherwise, all Officers of British Columbia, at and from the time of admission, having duties to discharge in relation to matters other than those coming within the classes of subjects assigned by "The British North America Act, 1867" to the Provinces, to be Officers of Canada.

16. And generally all such unenumerated provisions, acts, and things as may be necessary to the due and proper execution of the terms and conditions hereinbefore enumerated and to the granting of the prayer of this Address.

And as in duty bound we will ever pray.

The hon. gentleman dwelt at some length upon the probable results and advantages of the extension of Confederation to the Pacific, showing very conclusively how it would benefit this Colony in a material as well as a political point of view.

The next speaker was the hon. Mr. Wood, of Victoria, who moved the following amendment:-

A great French Physician says: "More than half the disease in the world comes from neglect to fortify the system against changes of climate, weather and food. The great secret of health is to keep the condition of the Stomach and Blood regular and uniform, so that changes from Heat to Cold, from Dry to Damp, etc., cannot upset the machinery of the Body, and breed disease." Now, it is a fact, positive and well known, that there is no such indispensable assistant for the Stomach as

PLANTATION BITTERS.

This splendid Tonic is now used by all classes of people for every symptom of a "Stomach out of order." The secret of it is this: Plantation Bitters are certain to correct the juices of the Stomach, set all its machinery at work, and enable it to resist and throw off the approaching danger. The tendency of the operations of the Stomach is always towards a cure; all she needs is a little assistance at the proper time. How much more reasonable and sensible it is to help her along with a gentle yet powerful Tonic, than to deplete and weaken and defeat her curative processes, with poisonous drugs and fiery mixtures which only stupefy and plant the seeds of disease and death.

Important Certificates.

"I owe much to you, for I verily believe the Plantation Bitters have saved my life."
Rev. W. H. WAGGONER, Madrid, N. Y.

"I have given the Plantation Bitters to hundreds of our disabled soldiers with the most astonishing effect."
D. W. D. ANDREWS,
Superintendent Soldiers' Home, Cincinnati, O.

"The Plantation Bitters make the weak strong, the languid brilliant, and are exhausted Nature's great restorer. The public may rest assured that in no case will the pure standard of the PLANTATION BITTERS be departed from."

Every bottle bears the same of our signature, and a steel plate engraving, or it cannot be genuine.

Any person pretending to sell PLANTATION BITTERS in bulk or by the gallon, is a swindler and impostor. Beware of refilled bottles. See that our Private Stamp is UNMUTILATED over every cork.

Sold by all Druggists, Grocers and Dealers throughout the world.

BLEAS.

Lyons' Mackerel Bait is sure and certain death to everything of the insect species—Fleas, Roaches, Mosquitoes, Ants, Bugs.

IT KILLS INSTANTLY.

What is peculiarly surprising in regard to this article is, that notwithstanding its instant death to insects, it is perfectly harmless to mankind and domestic animals. It can be taken or eaten with impunity. It bears the testimony of eminent disinterested chemists that it is

FREE FROM POISON.

No article has ever given such positive satisfaction in its use. Its reputation is well known. It is easily and readily used—Directions accompany each flask. Beware of counterfeits.

The genuine has the signature of E. Lyons, and the private stamp of Drabs & Co. Anything else of this kind is an imitation or counterfeit. Any druggist will procure the genuine if you insist you will have no other.

Sold by all druggists and dealers on Pacific Coast.

MEXICAN MUSTANG LINIMENT.

It is an admitted fact that the Mexican Mustang Liniment performs more cures in shorter time, on man and beast, than any article ever discovered.

No compound has ever been invented so useful and efficacious in curing

RHEUMATISM, STIFF & WEAKE JOINTS, BRUISES, SPRAINS, SORE THROAT, BURNS, FRESH CUTS OR WOUNDS, SWELLINGS.

Or any other complaints requiring external application.

FOR HORSES.

It is an indispensable and valuable remedy in all cases of Sprain, Splint, Ring-bone, Wind-galls, Bruises, Strains, &c.

It should be kept in every house, camp and stable. Accidents will occur. Promptness is efficacy.

All genuine is wrapped in steel plate engraving, bearing the signature of G. W. Westbrook, Chemist, and the PATENT U. S. Stamp of DEAS BARNES & Co. over the top.

An effort has been made to counterfeit it with a cheap stone plate label. Look closely!

Sold by all Druggists and Stores in every town and mining camp on the Pacific coast.

THE OFFICIALS AND CONFEDERATION.

The discussion and vote upon the question of Confederation furnish a sad commentary upon the selfishness of human nature. They do more. They afford a striking illustration of its shortsightedness. Those who listened to the speeches—if one might be excused for so designating them—from the "Ministerial Benches," on Friday night, must have felt that it was self-interest, pure and simple, that pleaded for a continuance of the present system, pleaded for an extension of their lease of office. To deny that Confederation, upon the basis proposed in the address, would be a great benefit to the Colony was more than any one dared to attempt. Its opponents had, therefore, to content themselves with objections of the most puerile character; such, for instance, as suggesting that Canada might not fulfil the conditions of union, after union had been consummated! The opposition to this important movement would have been entitled to far more weight, far more respect, had the real issue been candidly taken, the real issue honestly raised, viz.: that the present incumbents are determined to hold on to the "loaves and fishes," without regard to the interests of the Colony. That such a policy is very shortsighted and foolish must be obvious. Do these officials really imagine that they will be permitted to obstruct the progress of this great measure? They may retard it. But woe to those officials who do retard it! Such delay will only give the movement an additional momentum to crush them. Canada has set her mind upon the completion of the great scheme of the Confederation of all the British North American Possessions. The Imperial Government is equally solicitous that this work of consolidation should be completed. The Queen has already conferred special marks of favour and distinction upon the more prominent promoters of the scheme on the other side of the Continent. Is her Majesty likely to bestow marks of her especial favor upon those who are seeking to obstruct and thwart the scheme on the Pacific? That Confederation will come, in spite of official opposition, all must be convinced. If the people find the present set of officials opposing them in this movement, how are these officials likely to fare at the hands of these same people under the new condition of things when officials can only hold office by the popular will? Even viewed from the low ground of self-interest, it would obviously be the wisdom, as it would be the true policy, of the present incumbents, from the Governor downwards, to assist, instead of obstruct, the extension of Confederation to the Pacific. We would respectfully recommend the Governor and his officials to read, mark, learn and inwardly digest the first nine verses of the sixteenth chapter of the Gospel according to St. Luke.

THE COUNCIL AND RETRENCHMENT.

The Protest handed in on Saturday by the Member for Victoria District, and signed by other Victoria members, is, without exception, the coolest piece of hypocritical "bunkum" that has ever come under our notice. Had its illustrious author evidenced by his votes and his words during the Session that he was honest in his retrenchment professions, the case would have been different; but, with the exception of the very stupid attempt to impose the additional duties of Harbor Master

and Government Pilot upon the Captain of the str. Sir James Douglas and to abolish the Assay Office, that gentleman made no effort to bring about any reduction in the Civil List, either by amalgamation or otherwise. Indeed, it is notorious that he went in for increasing instead of reducing, and that he set himself strenuously against any feasible attempt on the part of others to effect any practical reduction. There is no doubt that the Estimates are far, very far from being what the country had a right to expect. While promising a reduction, the Government has really attempted nothing of the kind worthy of the name. In order to impart a color of retrenchment to the Estimates, five thousand dollars less were put down for charitable purposes and four thousand dollars less for Education. A pretty attempt at retrenchment certainly! One which the public will doubtless know how to appreciate. But, although the Estimates are far from what they should be; although almost the entire revenue is to be "gobbled up" by a board of hungry officials, and nothing save the "bare bones" is to be left for works of charity and utility, yet the protest comes with a singularly bad grace from the quarter whence it has emanated. The votes and enunciations of its author in Committee of Supply will furnish the Government with a very effective reply to the protest.

A CONVENTION.—A movement is on foot for the purpose of organizing a Convention to carry out the views and wishes of the people respecting Confederation. This mode of procedure has been rendered necessary by the late action of a Legislature which does not represent the people. It is intended that, as soon as the different sections shall have elected their Delegates, the Convention shall meet at Yale. No time should be lost in organizing this necessary and most important movement.

WHAT HAS BECOME OF IT?—A Memorial in favor of Confederation was transmitted to His Excellency the Governor on the 18th inst., from the Committee appointed by the public meeting held in this city on the 6th inst. The prayer of that Memorial was that His Excellency would bring the matter before the Legislature during the present Session. Surely His Excellency is not going to suppress that Memorial!

PRISON RETURNS.—We are indebted to C. J. Pritchard, Esq., Governor of the Jail, for the following abstract of Prison Returns for the month of April, 1868:—In Jail on the 1st of the month, 19; received during the month, 8; discharged during the month, 10; in Jail on the 31st of the month, 17.

LOADING.—Three vessels are now loading at Moody's mill, and will take away 1,200,000 feet of lumber. The ship Samoset will go to San Francisco; the barque Eastham to Calao, and the brig Sidon to Foo Chow. There is one ship, the Oakland, loading at Stamp's mill.

INTERESTING DEBATE.—The hon. Mr. DeCosmos' resolution for making two-thirds of the Legislature elective comes, up as the first subject for today. The House meets at 1 o'clock.

IMPORTANT PROCEEDINGS will be had in the Magistrate's Court this morning in connection with the Timber lands at Burrard Inlet.

FROM VICTORIA.—The str. Enterprise, Capt. Swanson, arrived from Victoria last evening with freight and passengers.

FROM YALE.—The str. Onward, Capt. Irving returned from Yale yesterday. There is no news of importance from the interior.

AYER'S

MEDICINES.

This peculiar taint or infection which we call SCROFULA lurks in the constitutions of multitudes of men. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein the vital forces are incompetent to sustain the vigorous action, and leave the system to fall into disorder and decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children" into the third and fourth generation; indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. Thus, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most effectual anti-dotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of Sarsaparilla in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the four corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of Sarsaparilla, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proved by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S

CHERRY PECTORAL.

The World's Great Remedy for Coughs, Colds, Inflammatory Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.

WEDNESDAY, APRIL 23, 1868.

LEGISLATIVE COUNCIL.

(Continued from 1st page.)

That this Council, while confirming
their vote of last Session in favor of
the general principle of the desirabil-
ity of the union of this Colony with
the Dominion of Canada to accomplish
the consolidation of British interests
and institutions in North America,
are still without sufficient information
and experience of the practical work-
ing of Confederation in the North
American Provinces to admit of their
defining the terms on which such a
union would be advantageous to the
local interests of British Columbia.

Mr. Wood spoke at some length and
with considerable fluency, but with a
marvelous disregard of both logic and
consistency, in support, or, at least,
professing in support of his amend-
ment. He set out by saying that he
had voted in favor of the principle
last Session, and was still in favor of
it. He admitted that it was the un-
doubted destiny, as it would be the
ultimate good, of British Columbia to
become a part of the Dominion of Can-
ada; but he differed with those who
held that the time had arrived when
it could be admitted with advantage
and self respect. Having been thus
far consistent with his amendment and
with his vote of last Session, the hon.
gentleman suddenly took the back
track, declared the vote of last Ses-
sion to have been a fatal mistake, a
leap in the dark, which should and

would not have been taken with the
light of present information shining
upon the subject. He endeavored to
prove that Confederation would be ev-
il, and only evil, to this Colony, that
with three representatives in a Par-
liament composed of eighty-five mem-
bers, our voice would be drowned and
our interests swamped; that all the
more important subjects of legisla-
tion would be entrusted to three pro-
fessional politicians who, being so far
removed from their constituents,
would be alike beyond their influence
and sympathy.

The hon. Mr. Robson followed. He
supported the Address. He adminis-
tered a scathing castigation to the
speaker who preceded him, pointing
out the glaring inconsistency of that
gentleman's speech with itself, with
the amendment it professed to sup-
port and with his vote of last Session.
The amendment confirmed the vote
on Confederation of last Session, and
yet the mover and supporter of the
amendment had characterized that
vote as a fatal mistake, a leap in the
dark, and declared that if he had
known as much then as he does now,
he would have been no party to it.
All this, mark, from the mover of a
resolution endorsing and confirming the
vote of last Session! (He (Mr. Robson)
quite agreed with the hon. Mr. Wood
that if this Colony were to be repre-
sented at Ottawa by politicians of
his (Mr. Wood's) stamp, the objections
would indeed lie with great force;
for our interests would certainly not
be safe in the hands of representatives
capable of perpetrating such glaring
inconsistencies and sudden reversions,
as had just been witnessed. With
such men to represent them the peo-
ple would need to be always within
pull of the cog-tail, in order to check
a sudden disposition to "double upon
their track". The hon. gentleman
had commenced his speech by telling
the House that he was in favor of Con-
federation and believed it would be
for our good, when the proper time
should arrive. But when was that time
likely to arrive in his estimation?
Were we to wait until this Colony
would be entitled to have a prepon-
derating representation in the Federal
Parliament? The basis of represen-
tation recognized was one representa-
tive to every twenty thousand. This
Colony could only claim two represen-
tatives on that basis; and yet the Ad-
dress asked for three. How long
would we have to wait for an addition
of twenty thousand to our white po-
pulation, under the present condition
of things? He feared we should have
to wait far beyond the natural life
time of the hon. gentleman. If we
could go into the Confederation now
with three representatives in the Par-

liament and two in the Senate, and
with all the other conditions in the
Address guaranteed to us, the sooner
the better. We had been waiting long
enough for population to come by sea.

The hon. Mr. Walkem followed on
the same side. He exposed the ground-
lessness of the objections which had
been urged by Mr. Wood in regard to
the relative smallness of our repre-
sentation at Ottawa, and alluded to
the United States as an illustration.
Was the voice of California drowned
at Washington, or were her interests
lost sight of amongst the crowd of re-
presentatives from the different States?
Were not even the interests of Ore-
gon and of Washington Territory duly
regarded? Even Alaska, away to the
north of us, would ere long make its
voice heard and its interests regarded
in the Councils at Washington. Why
should it not be so in our case? Can-
ada will have a common interest from
the Atlantic to the Pacific.

The hon. Mr. Helmcken was the
next speaker. He supported the amend-
ment, and, in doing so, was scarce-
ly less inconsistent and illogical than
its author. Indeed, it would be nei-
ther edifying to our readers nor com-
plimentary to their author to attempt
even a synopsis of the so-called argu-
ments adduced by the hon. gentleman
against the measure proposed in the
Address.

The hon. Mr. Ball, who claimed the
distinguished honor of seconding the
amendment, and the hon. Mr. Crease,
both spoke against the measure; but
beyond these the obstructionists
gave a silent vote! Better would
it have been for their cause, better for
their reputation as legislators had
they all kept a discreet silence.

The hon. Mr. DeCosmos closed the
debate by a speech of nearly two
hours' duration, and which, for ability
and effect, has been seldom equalled in
these Colonies. The castigation he
administered to the hon. Mr. Wood
and the hon. Mr. Helmcken produced
an effect upon these gentlemen, a vivid
recollection of which they will carry
with them through life. We have
neither the space nor the ability to
give even an epitome of the speech.
But, save for the satisfaction of the
punishment it inflicted upon men
whose consciences told them they were
recrystalline to duty, that speech might
just as well have been delivered to
empty benches.

Twenty minutes after twelve o'clock
the House divided on the amendment,
and the yeas and nays being called for,
stood thus:—

Yeas: Hons. DeCosmos, Stamp,
Walkem, and Robson. Nays: Hons.
Crease, Trutch, O'Reilly, Ball, Cox,
Pemberton, Helmcken, Wood, Elwyn,
Ker, Smith, and Spalding.

The following Protest was handed
in by the hon. Mr. Pemberton:—

1. That for several years past the
expenditure of the colony has been
continued at a rate out of all propor-
tion with its resources and small num-
ber of fixed white population.

2. That the Secretary of State for
the Colonies had given a rule in de-
spatch No. 23, (dated April 3th, 1866)
that the expenditure of the year must
be reduced to such an amount as may
be covered by a revenue calculated on
the actual average receipts of the
past two years, the wisdom of which
rule was highly appreciated by the
inhabitants of this colony.

3. That the actual revenue of 1866
was \$437,918; of 1867, \$475,250; and
the actual average of the past two
years \$456,134, notwithstanding which
the estimated revenue on which the
Government now proposes to base the
expenditure of 1868 is \$570,000, being
in excess of the rule so laid down
\$119,866.

4. That no public work of conse-
quence is contemplated in the propos-
ed Estimates for 1868, the sum named
for such purposes being barely suffi-
cient to keep existing works in repair.

5. Therefore that it is to amalgama-
tion of the offices and a reduction of
the Civil List that a saving must be
looked for.

6. That such amalgamation and re-
duction must necessarily be the work
of the Executive Government and not
of the Legislative Council after the
printed Estimates are submitted to
the latter in detail.

April 26th, 1868.

The Address was lost accordingly,
and the House adjourned.

THE BRITISH COLUMBIAN.

MONDAY'S SITTING.

Council met at one o'clock.

Several Messages were read.

The hon. Mr. DeCosmos gave a no-
tice of motion.

The House went into Committee of
Supply. The item for Education was
taken up. The hon. Mr. Wood spoke
at considerable length in support of
his amendment for \$20,000. On a di-
vision the amendment was lost, and
the hon. Mr. Robson's resolution for
\$10,000 was carried. The item, for
conveyance of Mails was next taken
up. The hon. the Colonial Secretary
read despatches from the Secretary of
State for the Colonies, in which it was
intimated that the Imperial Govern-
ment would be prepared to pay one
half of whatever subsidy might be ne-
cessary for a mail service between
San Francisco and this Colony. The
item in the Estimates was passed and
the general subject of a mail subsidy
referred to a Select Committee, con-
sisting of the hons. Crease, Hamley,
Trutch, Helmcken and Robson.

The Fire Inquest Bill passed through
Committee.

The House went into Committee
upon the Fence Bill. After some dis-
cussion it was referred to a Select
Committee consisting of the hons. Ball
Elwyn, Robson, DeCosmos and Wood.

The Anatomy Bill was read a sec-
ond time.

The House adjourned till 1 o'clock
on Tuesday.

TUESDAY'S SITTING.

The House met at 1 o'clock.

The hon. the Presiding Member
read the following

MESSAGES.

No. 16. The Governor has received
the resolution of the Legislative
Council, of the 2d April, expressing
the opinion that Victoria is the place
most suitable for the Capital of the
United Colony. Her Majesty's Gov-
ernment would seem to lean to the
same opinion. Under these circum-
stances the Governor will cause to be
proclaimed, on the Queen's birth day,
the selection of the Capital within
the town which bears Her Royal
name.

No. 17. The Governor has duly re-
ceived the resolution of the Legisla-
tive Council, approving that an Ad-
dress be presented to His Majesty, that
he will inform the Queen of the
of Her Majesty's Government to a re-
solution passed April 2d, 1867, recom-
mending that the salary of the Gov-
ernor be paid from Imperial funds,
and that the Executive have power
to simplify, centralize and reduce the
departmental system so as to lessen
the public expenditure to such a fig-
ure as the colony is able to bear.

As regards the first point he would
state that he believes the condition of
the finances of the colony generally is
engaging the attention of the Secre-
tary of State.

As regards the second he has to re-
mark that very considerable powers
for effecting retrenchment are confi-
ded to the Governor. He is loath, how-
ever, at all times to receive legiti-
mate expectations, and to refuse,
without absolute necessity, respect-
able public officers of poverty.

No. 18. The Governor has received
the Resolution of the Legislative Coun-
cil passed on the 23d inst., request-
ing to be informed what steps, if any,
have been taken by the Government
of this Colony towards the formation
of a dry dock at Esquimalt or any
other part of the Colony.

Very lengthy correspondence has
passed on this subject between His
Grace the Secretary of State, Rear
Admiral the hon. G. Hastings, and the
Governor; but it would not be con-
venient to the public service to lay it
before the Council.

Every effort is being made to carry
into effect a work of such great im-
portance as that in question.

No. 19. The Governor has to ac-
knowledge the receipt of a Resolution
from the Legislative Council, passed
on the 24th inst., enquiring whether
Her Majesty's pleasure has been sig-
nified with regard to the proposed
Ordinance of last Session, respecting
the disposal of the Crown Lands.

No decision has been received.

It is but right to inform the Coun-
cil that the Land Bill was accident-
ally, somewhat later in transmission
home than some of the others.

ORDERS OF THE DAY.

The Bill of Supply was read a first
time.

The Supreme Courts Bill was passed
through Committee and reported
complete. It is substantially the
same as when it came from the hands
of the Select Committee, the Execu-
tive opposition having been removed.

The Intestate Estate Sales Bill was
read a third time and passed.

The hon. Mr. Helmcken moved for
returns showing arrears of expendi-
ture at the close of 1867, and the in-
debtedness of the Colony.

The Petition from Mr. Thomas
Spence was considered, and, on mo-
tion of hon. Mr. Robson, the following
resolution was passed:—That the Pe-
tition of Thomas Spence be referred
to the Governor with the recommen-
dation that the prayer therein con-
tained be granted.

The petition asks for an extension
of the Charter for two years and a
half to enable the petitioner to have
an opportunity of recovering loss sus-
tained by unforeseen disaster, over
which he could have no control.

The Fire Inquest Bill was read a
third time and passed.

The hon. Mr. DeCosmos' Resolution
for making two-thirds of the Council
elective was made the first order of
the day for Wednesday, and the House
adjourned till 1 o'clock on that day.

MYNHEER Paul Dietrich, of Mil-
waukee, feeling his earthly tabernacle
stored with troubles to be expelled,
decided, after full enquiry and inves-
tigation, to employ Ayer's Pills. In
his haste to purify his Dutch stomach,
he mistook the directions, 2 to 7, and
swallowed 27 for a dose. This creat-
ed, of course, an appalling internal
rebellion. But Paul went through
the fight like a hero, and came off vic-
tor at last, with a renovated constitu-
tion which he proudly exhibits as
proof of the wisdom of his choice.
He advises everybody to take Doct.
Ayer's Pills, but kindly advises his
friends who are afflicted of follow-
ing his example, to be safe and take
the right dose.—*Amuramba's* *Telegraph*.

ALL OVER

The world people of sense and judgment have learned to use

PLANTATION BITTERS.

Dyspepsia, with its symptoms, Headache, Heartburn,
Feverish Lips, Bad Breath, Yellow Complexion, &c.,
can be cured by using PLANTATION BITTERS.

This is the most successful tonic of the age. Young,
middle-aged and old, are delighted with its effects.

The first trial always has a marked good effect.
No change of diet is necessary. Eat all you wish,
of the best and most nutritious food.

It is the greatest cure ever known for an overworked
and distressed stomach, which it relieves in a few
days.

We know that we have the best and most popular medi-
cine in the world. We are not afraid to show what it is
composed of.

DRUGGISTS ARE COMPELLED TO RECOMMEND IT.

CAZSATA BARK has been celebrated for over two hun-
dred years, and was sold during the reign of Louis XVI,
King of France, for the enormous price of its own weight
in silver. It is remarkable for Dyspepsia, Fever, Weak-
ness, Constipation, &c.

CASCARELLA BARK.—For Bilethoria, Colic, and diseases
of the stomach and bowels.

—DANDELION.—For inflammation of the Liver and biliary
Affections.

CRANSHAW FLOWERS.—For enlarged digestion.

LYNCHER FLOWERS.—Aromatic, stimulant and tonic,
highly interesting in nervous debility.

WINTERGREEN.—For Rheumatism, Rheumatism, &c.

ASIAN.—An aromatic carminative; creating flesh,
muscle and milk; much used by mothers nursing.

Also—clove-buds, orange, curaway, carduus, snake-
root, &c.

S.T-1860-X.

Another wonderful ingredient of Spanish origin, it
parting beauty to the complexion and brilliancy to a
mind, is yet unknown to the commerce of the world
and we withhold its name for the present.

With this recipe before the community, and evidence
of effects moving them on all sides, we are enabled to
DRINK stands founded upon the rock of truth. Almo-
every family has some case of suffering which the PLAN-
tation Bitters will alleviate and cure.

CURE IS AT HAND!
HOLLOWAY'S OINTMENT

Scorbutic Eruptions, as Sore Heads and Scrofulous Swellings.

If this powerful Ointment be well rubbed into the parts affected, all skin disease will be speedily overcome. It acts not by repression, but by repulsion. It enters the system as salt enters meat, and operates not locally only, but constitutionally purifying the whole system, neutralizing all depraved humors, and effecting a radical and complete cure. The Pills should be taken as an auxiliary to the Ointment, as they are so prepared to target in unison with it, facilitating and condensing the conquest of the disease.

Diphtheria, Ulcerated Sore Throat and Quinsy.

The above complaints have for twenty years been treated with Holloway's Ointment and Pills with complete success. The cure have been so remarkable, speedy and numerous, that these often fatal diseases are more easily cured by these medicines, than even the common sore throat, and the cure is so rapid in time.

The Kidneys, Stone and Gravel.

In these complaints, the Ointment almost acts like a charm, providing it is very effectually rubbed over the region of the kidneys, which it will penetrate and give almost immediate relief, while the Pills should be taken according to the printed directions, when the most extraordinary cures may be effected by this means.

Bad Legs, Bad Breasts, Scrofulous Sores, and Glandular Swellings.

In such cases the Ointment operates curiously and with a rapidity that resembles magic. It should be rubbed into the parts affected, after they have been lanced with lukewarm water. The purifying and curative powers of the Ointment have never failed. Any old sore, wound or ulcer always yields to its influence, and in cases of bad breasts, or milk fever, its action is wonderful. Glandular swellings may soon be reduced by following the printed directions.

The Action of the Heart. Dropsy.

The last named disease is commonly preceded by irregular action of the heart, and difficult respiration; which symptoms are always severe, and ever go from bad to worse, unless proper means of cure are resorted to. In Holloway's unrivalled Ointment and Pills the dropped patient will ever find succor; the present relief derived from the use of these remedies is marvellously quick, and perseverance in the application of this famous Ointment invariably results in a cure. They act with such energy on the circulation and absorbent system, that the dropped blood is purified, and the sufferer finds all the oppressive symptoms daily decline, till natural health returns.

Gout and Rheumatism.

May be cured with the greatest certainty by large quantities of the Ointment be well worked into the complaining parts, and this perseveringly done for some time. It is no use to stop it on the skin only, it must be got into the system. Take as many Pills nightly as will act two or three times during the 24 hours; each use of the Ointment and Pills will be followed by a complete leaving the system, the violence of the complaint frequently seems to increase.

Indigestion of Youth.

Stomach ulcers and swellings can with certainty be cured if this Ointment be thoroughly rubbed all round the chest, and the stomach, and the Ointment be taken in the evening. The Pills must be taken according to the printed directions. The blood, being in an impure state, perseverance is necessary. A few lines of the Ointment and Pills will be answered gratuitously. To save carriage the Pills should be obtained in the neighborhood of the sufferer, and not from Holloway's Establishment.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs, Chapped hands, Scalds, Sore Breasts, Contracted and Sore Nipples, Burns, Stiff Joints, Sore Throats, Bruises, Elephantiasis, Skin Diseases, Bile of Vesicles, Pimples, Sore-heads, and Sore-eyes, Glandular Swellings, Tumor, Chicago-foot, Itches, Wounds, Corns (soft), Ringworms, Yaws, Chancres, Rheumatism, Chills, and all other diseases.

Sold at the establishment of PROFFER HOLLOWAY, 224, Strand, (near Temple Bar) London; and by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices:—1/6, 1/3, 2/6, 4/6, 8/6, 1/2, 2/2, and 3/2, each Pot.
There is a considerable saving by taking the larger sizes.
N.B.—Directions for the guidance of patients in every disease are affixed to each Pot.

Ayer's SARSAPARILLA,

THE WORLD'S GREAT REMEDY FOR

Scorfula and Scrofulous Diseases.

From Emery's, a well-known merchant of Oxford, Maine.

"I have sold large quantities of your SARSAPARILLA, but never yet one bottle which failed of the desired effect and full satisfaction to those who took it. As fast as our people try it, they agree there has been no medicine like it before in our community."

Eruptions, Pimples, Blotches, Pustules, Ulcers, Sores, and all Diseases of the Skin.

From Rev. Robt. Stratton, Bristol, England.

"I only do my duty to you and the public, when I add my testimony to that you publish of the medicinal virtues of your SARSAPARILLA. My daughter, aged ten, had an afflicting humor in her ears, eyes, and hair for years, which we were unable to cure until we tried your SARSAPARILLA. She has been well for some months."

From Mrs. John E. Rice, a well-known and much-esteemed lady of Danvers, Cape May Co., N. J.

"My daughter has suffered for a year past with a scrofulous eruption, which was very troublesome. Nothing afforded any relief until we tried your SARSAPARILLA, which soon completely cured her."

From Charles P. Gage, Esq., of the widely-known Gage, Murray & Co., manufacturers of condensed papers in Nashua, N. H.

"I had for several years a very troublesome humor in my face, which grew constantly worse until it disfigured my features and became an intolerable affliction. I tried almost every thing a man could do both with advice and medicine, but without relief whatever, until I took your SARSAPARILLA. It immediately made my face worse, as you told me it might for a time, but in a few weeks the new skin began to form under the blotches, and I am now as smooth as any body's."

"I am without any symptoms of the disease that I know of. I enjoy perfect health, and without a doubt owe it to your SARSAPARILLA."

Erysipelas—General Debility—Purify the Blood.

From Dr. Robt. Swift, Houston St., New York.

"DR. AYER: I seldom fail to remove Eruptions and Scrofulous Sores by the persevering use of your SARSAPARILLA, and I have just now cured an afflicting Malignant Erysipelas with it. No alternative we possess equals the SARSAPARILLA, as you have applied to the profession as well as to the people."

From J. E. Johnston, Esq., Wadsworth, Ohio.

"For twelve years I had the yellow Erysipelas on my right arm, during which time I tried all the celebrated physicians I could reach, and took hundreds of dollars worth of medicines. The ulcers were so bad that the cords became visible, and the doctors declared that my arm must be amputated. I began taking your SARSAPARILLA, and in a few weeks the cords became visible, and the ulcers were so bad that the cords became visible, and the doctors declared that my arm must be amputated. I began taking your SARSAPARILLA, and in a few weeks the cords became visible, and the ulcers were so bad that the cords became visible, and the doctors declared that my arm must be amputated."

From Hon. Henry Munro, M. P. P., of Newcastle, C. B., a leading member of the Canadian Parliament.

"I have used your SARSAPARILLA in my family, for general debility, and for purifying the blood, with the most beneficial results, and feel confident in commending it to the afflicted."

St. Anthony's Fire, Rose, Salt Rheum, Scald Head, Sore Eyes.

From Harvey Stecker, Esq., the able editor of the Pennsylvania Democrat, Pennsylvania.

"Our only child, about three years of age, was attacked by pimples on his forehead. They rapidly spread until they formed a hazardous and afflicting sore, which covered his face, and actually blinded his eyes for some days. A skilful physician applied salvarsol and other remedies, but without apparent effect. For fifteen days we guarded his hands, lest with them he should tear open the festering and corrupt wound which was on his face. Having tried every thing else we had any hope from, we began giving your SARSAPARILLA, and applying the liniment of Goulard, which had direct effect. The sore began to heal when we had finished the first bottle, and was well when we had finished the second. The child's eyes were, which had come out, grew again, and he is now as healthy and fair as any other child. The whole neighborhood predicted that the child must die."

Syphilis and Mercurial Disease.

From Dr. Hiram Stott, of St. Louis, Missouri.

"I find your SARSAPARILLA a more effective remedy for the secondary symptoms of Syphilis and for syphilis disease than any other we possess. The profession are indebted to you for some of the best medicines we have."

From A. J. French, M. D., an eminent physician of Lawrence, Mass., who is a prominent member of the Legislature of Massachusetts.

"DR. AYER: My dear Sir: I have found your SARSAPARILLA an excellent remedy for Syphilis, both of the primary and secondary types, and cured in some cases that were too obstinate to yield to other remedies. I do not know what we can employ with more certainty of success, where a powerful alternative is required."

Mr. Chas. S. Fox, Esq., of New Brunswick, N. J., had dreadful ulcers on his legs, caused by the use of mercury, or mercurial disease, which grew more and more aggravated for years, in spite of every remedy or treatment that would be applied, until the persevering use of AYER'S SARSAPARILLA relieved him. Few cases can be found more inveterate and distressing than this, and it took several dozen bottles to cure him.

Leucorrhoea, Whites, Female Weakness, are generally produced by internal Scrofulous Ulceration, and are very often cured by the alternative effect of the SARSAPARILLA. Some cases require, however, in aid of the SARSAPARILLA, the skilful application of local remedies.

From the well-known and widely-celebrated Dr. Jacob Morrell, of Cincinnati.

"I have found your SARSAPARILLA an excellent alternative in diseases of females. Many cases of irregularity, Leucorrhoea, internal Ulceration, and local debility, arising from the scrofulous nature of Syphilis, have yielded to it, and there are few that do not, when its effect is properly aided by local treatment."

A lady, unwilling to allow the publication of her name, writes:

"My daughter and myself have been cured of a very debilitating Leucorrhoea of long standing, by two bottles of your SARSAPARILLA."

Rheumatism, Gout, Liver Complaint, Dyspepsia, Heart Disease, Neuralgia, when caused by Scrofula in the system, are rapidly cured by this EXT. SARSAPARILLA.

AYER'S

CATHARTIC PILLS

possess so many advantages over the other purgatives in the market, and their superior virtues are so universally known, that we need not do more than to assure the public that the quality is maintained equal to the best it ever has been, and that they may be depended on to do all that they have ever done.
